American U Operating 30 Centers in Area

American University has a total of 30 off-campus education centers manned by its teaching staff and located throughout the Washington metropolitan area this fall.

Enrollment in off-campus and in-service programs at American have zoomed from 450 in 1957 to this fall's total of nearly 1,925, an increase of more than 400 percent over the nine-year period.

Courses range from automatic data processing systems and computer programming to quantitative economics, integral calculus and the theory of probability.

Centers offering American University courses in Washington are located at Bolling Air Force Base, Children's Hospital, the General Accounting Office, Main Navy Building, the National Archives Building, Metropolitan Police Department headquarters, and police headquarters at the White House executive building.

Maryland centers of the university are located at the National Naval Medical Center and the General Electric Co. in Bethesda, the David Taylor Model Basin in Carderock, the Chevy Chase Elementary School in Chevy Chase, and the National Security Agency at Ft. Meade.

There are 18 off-campus centers of the university in Virginia, including three in Arlington and four in Alexandria.

American University centers in Arlington are located at the Army Education Center in Arlington Hall Station, the Arlington Police Department and the Naval Counterintelligence Support Center.

In Alexandria, study programs are conducted at the Alexandria School Board Education Center, Cameron Station, the Alexandria Police Department and the U.S. Park Police training center at Jones Point.

Other Virginia centers of AU are at the Pentagon, Vint Hill Farms in Warrenton, the Naval Weapons Laboratory in Dahlgren, the Annandale Terrace Elementary School in Annandale, the Lewinsville Elementary School in McLean, the Lynbrook Elementary School in Springfield, J.E.B. Stuart High School and Falls Church High School in Falls Church, the Fairfax County Police Department in Fairfax, Ft. Belvoir, and the Central Intelligence Agency.
